

SEMINAR ON DYSLEXIA IN CHILDREN

Seminar presentation was held in PG centre by Dr.Manjunath.Oulkar PG-1 (PEAD) under the guidance of guide Dr.Nahida.M.Mulla MD (HOM), HOD(PEAD) on the topic DYSLEXIA IN CHILDREN .

OBJECTIVE was to understand and to explore about learning disability dyslexia, to know the role of homeopathic remedies for learning disability.

INTRODUCTION was given regarding dyslexia i.e difficulty in reading and writing it's prevalence rate, it's causes, pathological factors ,it's types etc .all these aspects were discussed in detail. For better understanding a video of 6:50min was shown from the well known movie TAARE ZAMEEN PAR where actor Amir Khan explains well about dyslexia to parents of dyslexic child Ishan Awasti. This video helped everyone for better understanding of the topic and created much more interest in discussion in the session.

Later in the session has explained about the other learning disabilities like dysgraphia and dyscalculi which are associated with dyslexia. This helps us to differentiate about what actually difficulty faced by the child ,weather in reading or writing , about the correct spelling, calculations like addition, subtraction, multiplication etc . Also showed pictures of dysgraphia and dyscalculi for knowing the different patterns of learning disability.

Lastly Homeopathic remedies which can help in this conditions were discussed, remedies like Lycopodium, Natrum Mur, Hypericum, Mercurius Solibulus , cannibis indica , Baryta group, were discussed in detail and the practical utility also discussed . Further the seminar was concluded after clearing the queries, difficulties related to topic.
