

**WORKSHOP ON WATER CONSERVATION AND RAIN WATER HARVESTING AT
A.M. SHAIKH HOMOEOPATHIC MEDICAL COLLEGE, PG & RESEARCH CENTRE.**

The department of community Medicine of A.M. Shaikh Homoeopathic Medical College, PG & Research Centre conducted a guest lecture on Water Conservation and rain Water harvesting at Shaikh Campus recently. The main objective of the workshop was to aware the students to experience the dire need of water.

The guest speaker on this occasion was Dr. Aarathi Bhandari. Addressing the gathering Dr. Aarathi Bahndari emphasized on how to avoid wastage on water and stressed on contributing towards “Save water Save Life” mission. She further highlighted on the imbalance of water supply and demand, as well as the climate change disturbing the ecosystem. She said that these extreme and unfit situations can be managed through rain water harvesting.

She further said that people should be involved in rain water harvesting, a system which is not new but could be a failure if not implemented properly. She advised everyone to make use of this kind of innovation by realizing the

value and preciousness of water. She therefore urged upon one and all to avail the benefits through this program as this could be a means of livelihood in the form of mineral water. At the same time she spoke about the importance of such workshop so that people could be benefited.

Dr. K L Achrekar was also present during the workshop. All the staff and students of A.M. Shaikh Homoeopathic Medical College attended the function. The event concluded with vote of thanks proposed by Mr. Sarfarz.
