

INTER-DEPARTMENTAL INTEGRATION REPORT

Title : Value of Pathology in Homoeopathy.

Objective : Learning objective is to understand the importance of pathology and Vital dynamics in understanding disease.

Purpose/Need for Integration: Pathology in view of Organon and Homoeopathic Philosophy and its importance to Homoeopathy.

Methodology/Creativity involved: Question Answer session at the end where the presenters cross questions each other regarding the integrated topic.

Learning Outcome:

Integration is defined as the process of combining two or more things into one. Within education, integrated lessons combine two or more concepts into one lesson, specifically these lessons need to cross over subject areas while addressing a specific learning objective.

Students of second year BHMS were able to understand the concepts and principles of Homoeopathy when they applied it to science of Pathology. Students remained focused on Concept of Vital dynamics and used aspects of Modern Pathology highlighting its importance to understand the affected dynamics.
