

ROLE PLAY A CREATIVE AND INNOVATIVE APPROACH TO TEACHING AND LEARNING

“SYPHILLIS THE DESTRUCTIVE MIASM”

Participants of Final year Batch were given the topic “SYPHILLIS THE DESTRUCTIVE MIASM “ with the necessary references and notes of conversation and was asked to inact role play of their choice in a way of conversation or interaction . They were given specific instructions on what to prepare, and they were asked to act and react in their own way depending on the requirements of the exercise. The participants acted out the scenario and later there was reflection and discussion by the audience (final yr students, Organon PG, CST-Dr FMA) about the act done in the role-play.

The outcome of the methodology adopted was fruitful with complete 1 hr involvement of every student ensuring learning to happen effectively at the end.

Students of final year namely Lubna, Maheshwari, Mahima, Monisha, Niharika, Poojitha, Chandrilekha,Rehan, Sandesh, Sandeep, Eram, Vishal. have done a 1 hr role play under the guidance of Dr Fauzia.M.Ansari - Dept of Organon of Medicine. One of the student wrote a rap song on symptoms of Syphilis. The role play was done in the class room audience being final year students,PGs and CST-Dr FMA.
