

FREE DIABETES HEALTH CHECK-UP CAMP AT A.M. SHAIKH HOMOEOPATHIC MEDICAL HOSPITAL BELAGAVI.

A.M. Shaikh Homoeopathic Medical Hospital organized a Free Diabetes Health Check-up Camp, focusing on diabetes mellitus patients. The camp aimed to provide essential health check-up services, including Random Blood Sugar (RBS) testing and Blood Pressure (BP) monitoring. The initiative sought to promote health awareness and offer holistic health evaluations and recommendations.

- **Health Services Provided:**
 - Random Blood Sugar (RBS) Testing
 - Blood Pressure (BP) Monitoring
 - Health evaluations and Life style modifications.
- **Awareness and Education:**
 - Educated patients on the significance of regular health check-ups.
 - Highlighted early detection and management of diabetes-related health issues.

Participation:

- The camp witnessed around 34 diabetic patients from the community.
- Dr. Fauzia.M.Ansari along with interns provided homoeopathic consultation and addressed individual health concerns.

Outcomes:

- Successful identification of patients requiring Life style modifications.
- Increased awareness about diabetes management and preventive measures.

The Free Diabetes Health Check-up Camp was successful in providing essential health services and raising awareness about diabetes management. The event emphasized the importance of regular health monitoring and early detection of potential health issues, contributing to the overall well-being of the community.
