“A. M. SHAIKH MEDICAL COLLEGE ORGANISES NUTRITIONAL SCREENING CAMP”

The **Department of Practice of Medicine, A. M. Shaikh Homoeopathic Medical College, Hospital & PG Research Centre, Belagavi**, organised a **Nutritional Screening Camp** at Shaikh Central School, Belagavi, with the objective of promoting awareness about healthy nutrition and assessing the nutritional status of students.

The screening was carried out using **anthropometric measurements and dietary pattern assessment**. These methods helped in evaluating the students' growth, nutritional status, and general dietary habits. The assessment was conducted by the **faculty members and postgraduate (PG) scholars of the Department of Practice of Medicine**, who systematically recorded and evaluated the relevant parameters.

The camp provided an opportunity to identify nutritional concerns at an early stage and encouraged students to understand the importance of balanced nutrition and healthy eating habits. The initiative reflected the institution's commitment to promoting **preventive healthcare, nutrition awareness, and the overall well-being of students**.
